

Telecommunications Engineer

1st Callcom Limited

Location: Sheffield, S21 3WY

Job Type: Full-time

With a portfolio of products that includes telecommunications and security equipment, we are looking to recruit a new enthusiastic Telecoms Engineer based at our modern offices in Renishaw just off junction 30 of the M1 motorway.

Our engineers have a first-rate understanding of telecommunications and are customer focussed in their approach to engineering, they understand customers requirements, give them the best advice and also have the drive and ambition to succeed. If you are a natural problem solver and you are keen to develop your skills then we want to hear from you.

This role is an exciting opportunity for successful applicants to develop a career in an ever-changing and prosperous industry in a role that is both challenging and rewarding.

To be considered for this position you will:

- Have the ability to work on Panasonic telephone systems, hosted telephone systems and *ideally* would be familiar with CCTV and door entry.
- Have excellent communication and customer service skills.
- Have a logical approach to problem-solving.
- Have experience in carrying out site surveys and installations.
- Be a self-motivated individual.

If you have the skills and experience we require for this role and are looking for a new challenge please email your CV to us at sales@1call.co.uk with a relevant cover letter, explaining why you are a good fit for this role.

Benefits: Salary negotiable dependent on experience, company vehicle allowance, laptop, further company benefits available such as private dental care, bonus scheme and extra holidays after one year's employment.
